

Character	Personality
Adora	<p>Adora is young and a bit naive at times. However, she is incredibly knowledgeable in her chosen subjects, mechanics and AI. She is a talented mechanic and loves to experiment and tinker.</p> <p>She is often extremely talkative, friendly and at times can be quite loud. She can get on some crew members nerves, especially since she struggles to keep her voice down, but she is a favourite of everyone on board due to her positive nature and childlike joy over the smallest things.</p>
Drew	<p>Drew is the AI specialist aboard the ship. He is generally upbeat and likable. He fancies himself a comedian, his trademark being his puns which he will make any opportunity he gets. Drew is friendly and approachable; the crew enjoy his company. He can be stern sometimes, but he is usually right when he does so. He is often someone the other crew members go to for advice.</p>
Marcus	<p>Marcus is a trained researcher. He is known to be passionate about his work and he values the importance of all the research he does. He isn't very trusting in large corporations, knowing that the research he does for them could be used in dangerous ways or the production could be rushed. He is good friends with the captain and when he does take a break from his research he can be found hanging out with the rest of the crew.</p>
Trix	<p>Trix is smart though she doubts her abilities often. She does know however, that she is capable of managing the ship well. She is often very nervous and struggles to talk to people. She is the opposite to Adora in this way and yet finds Adora to be the easiest person to get along with. She is kind and considerate of everyone on board. Many of the crew consider her to be one of the nicest people they have met.</p>
Quill	<p>Quill is focused and determined in his research. Like Marcus he values his research greatly. He can be reserved and fairly stoic in his expressions but can be vulnerable with others when needed. He is liked by the others, but they are aware that he has a reputation to upkeep and so attribute his quite nature to an attempt to not embarrass himself. He makes the effort to spend time with the others but can be difficult to gauge as to what he is really thinking.</p>
Gordon	<p>Gordon is the oldest member of the crew, though he is still very capable at his job. He specialises in defence but has completed all Hurtlock Training courses, however this was some time ago, so his training is mostly outdated. Gordon can be quiet one day and chatty the next though he rarely says a bad word against anyone, however if he doesn't like something you did, he will let you know about it. He is respected amongst the crew and well liked for his card game tricks.</p>
Cap. Jordan	<p>Percy Jordan was the captain of the SunSpear. He was extremely well liked for his kind and compassionate nature and his upbeat attitude. He was one of the best captains most the crew had worked under. He took the time to listen to any crew member who walked in his door and treated them all with great care.</p>
