Self-Description: Hi, my name is Adora. Uhhh what do I say. I probably should have wrote something down before recording... Oh shot! Its still recording! So, I am the ships head engineer, I am really excited to have gotten this job. Um I am from Earth, even though I miss home and my dad I am so excited to be out here, I am actually in space! ... this was awful... reminder to self, re-record this later. Ok bye.

Name: Young, Cassie

Age: 39

Species: Human

Bio Enhancements: Bio Eye replacement

Training: Hurtlock Navigation Training

Speciality: Navigation

Crew Role: Navigator

Previous Employment: Rank Three Fighter Pilot and Navigator for X-gen International for ten years.

Origin: Titan - Moon

Emergency Contact: Wife, Heather – See Ships AI for Contact details.

Self-Description: I am an accomplished navigator who has now been working with Captain Jordan Peirce for five years. I have a family on Titan but am looking to move to Earth sometime in the next few years once I have enough credits saved up. I am looking into a degree in AI fundamentals to allow me to work closer to home. Though I love the voyages and adventure I have had aboard the SunSpear, I will be glad to have them over so I can watch my kids grow up.

Name: Biggs, Drew

Age: 43

Species: Human

Bio Enhancements: Bio-Forearm

Training: Hurtlock Engineer Trained, Hurtlock AI Specialist

Speciality: AI Technology

Crew Role: AI Technician

Previous Employment: AI Technician for X-gen Industries for six years and later an engineer working for Hurtlock S.H.I.P.S specifically designing on the SunSpear ship range

Origin: Earth Sector 2

Emergency Contact: Wife, Siobhan – See Ships AI for Contact details.

Self-Description: I am Drew Biggs; I have an amazing life and a beautiful wife who is waiting for me on Earth. I am a pretty good AI specialist. AI are incredible and if it was down to me, they would have the same rights as any other conscious species, but it's not down to me unfortunately. Other than that, I am an aspiring comedian! Check out my material – What did the cannibal get when he turned up to the dinner party late? A cold shoulder... yeah, my wife thinks I'm cheesy too

Name: Jordan, Percy

Age: 36

Species: Human

Bio Enhancements: N/A

Training: Degree in Medicine from UST. Hurtlock Navigation Trained, Hurtlock Defence Trained

Speciality: Medical care

Crew Role: Captain

Previous Employment: Navigator for the Atlas Project for eight years

Origin: Earth Sector 2

Emergency Contact: Sister, Lucy – See Ships AI for Contact Details

Self-Description: I have been a captain for six years now, the health and wellbeing of my crew is and always will be my top priority. The stories I have heard from other ships... I pride myself on being a good captain to my crew. This new job from the Atlas Project could revolutionise space travel, I hope it will make the job of my crew, and all other crews easier. Imagine being able to travel from one point of the galaxy to the other just by entering a wormhole, and we will be able to make them. Mind-blowing!

Name: Morgan, Trix

Age: 29

Species: Human

Bio Enhancements: N/A

Training: Degree in Data Management from UEC

Speciality: Data Management

Crew Role: Ship Manager

Previous Employment: Data Management at Ragon Industries for four years

Origin: Earth Sector 1

Emergency Contact: Mother, Dani – See Ships AI for Contact Details

Self-Description: I haven't been good at many things; in fact, I am not very good at much at all, I even find talking to people hard sometimes. But data! Now data I do get, it's something that is often overlooked by many captains. Captain Jordan sees its importance but struggles to understand it and organise it, luckily, he is very happy to have taken me on to do that all for him. Plus, I have met the most amazing people on this crew, they are all so friendly and caring. And I am over the moon (literally) to have met Adora.

Previous Employment: Management at Ragon Industries

Origin: Enceladus - Moon

Emergency Contact: Father, Artis – See Ships AI for Contact Details

Self-Description: My name is Quill Ragon, I am the son of Artis Ragon and will be taking over at the CEO of Ragon Industries in the next few years. I have been granted the incredible chance by Captain Jordan to take part in a research project before I must settle into my new role. I have enjoyed the project so far and am eager to collect the data we need to improve cosmic travel. Quill out...

Name: Duke, Marcus

Age: 33

Species: Human

Speciality: Physics

Crew Role: Researcher

Previous Employment: Researcher at X-gen International for five years

Origin: Enceladus - Moon

Emergency Contact: Brother, James – See Ships AI for Contact Details

Self-Description: I am Marcus, I am obsessed with physics basically. I have dedicated my life so far to pursuing new scientific theories and practices. I am also a casual tech nerd, I have been learning more about AI tech recently and tinkering around with the mechanics of this ship, with Adora and Drew's help of course, don't worry Percy, your ship is in good hands with those guys.

Name: Russo, Gordon

Age: 56

Species: Human

Bio Enhancements: N/A

Training: All Hurtlock Training Courses Completed

Speciality: Jack-of-all-trades

Crew Role: Defence expert

Previous Employment: Worked at Hurtlock S.H.I.P.S for over 20 years

Origin: Earth Sector 1

Emergency Contact: Wife, Jane – See Ships AI for Contact Details

Self-Description: Been feeling my age a little more lately. This should be a good last job for me before I retire, been a pleasure working with Jordan these past couple of years, but I am just looking forward to sitting on a porch somewhere nice and sunny. The voyage has gone well so far with no incident, I oversee the defence of the ship. Meaning that I look out for danger and am the one to respond to it, I also help out in other areas, but I am a bit out of practice when it comes to the mechanics and AI, everything moves so fast these days that my skills are a little outdated. Luckily, I am still useful in entertaining everyone onboard with my six string.
